 9. Individual Products

For more than a decade, Tense has been known for its premium quality, refined aesthetics, and intelligent KNX technology. Each product is a **handcrafted design object**, meticulously created from **noble and natural materials** such as metal, stone, wood and glass. Tense combines **Belgian design** expertise with **German engineering** to create solutions. Solutions which **refine modern interiors** and transform everyday moments into experiences of lasting value.

1

100% Designed in Belgium, Handcrafted in Germany

Designs originating from the Tense Design office in Belgium receive the technological back bone and functionality in the development and manufacturing center in Germany. A team of experts takes each product from ideation to perfection and assembly of each product is done manually.
Designed in Belgium. Handmade In Germany.

2

Best of Both Worlds

Innovative and high-quality **high-end** products are the result of **years of passion** for design and technology.

3

High-End Materials

Tense offers a wide range of **fine raw materials** that have been carefully selected. Matching every style, the exclusive materials make each button a unique piece of art.

4

Smart Home

Tense products are built for the established, worldwide building automation standard KNX, providing great peace-of-mind. On top of its unique look and feel, all Tense products come with smart functions to bring your smart home to life.

Unique Characteristics of Tense

Tense

Spotlight on Excellence

In unserer schnelllebigen Zeit steht Tense für Exzellenz in Form und Funktion. Mit einem klaren Fokus auf Qualität und Präzision definieren unsere Produkte neue Standards – durch herausragendes Design, edle Materialien und handwerkliche Fertigung.

In our fast-paced world, Tense stands for excellence in form and function. With a clear focus on quality and precision, our products set new standards – through outstanding design, fine materials and craftsmanship.

Eternity 8

Elegance and Control at your Fingertip

Eternity 8

Genuine metal frame blends seamlessly into high-end interiors.

Sleek Design meets Smart Home control.

Brilliant display to control all functions; from lights to shading, to indoor climate and energy management.

Eternity 8 links with your **SIP door communications** and **IP cameras**.

Alu

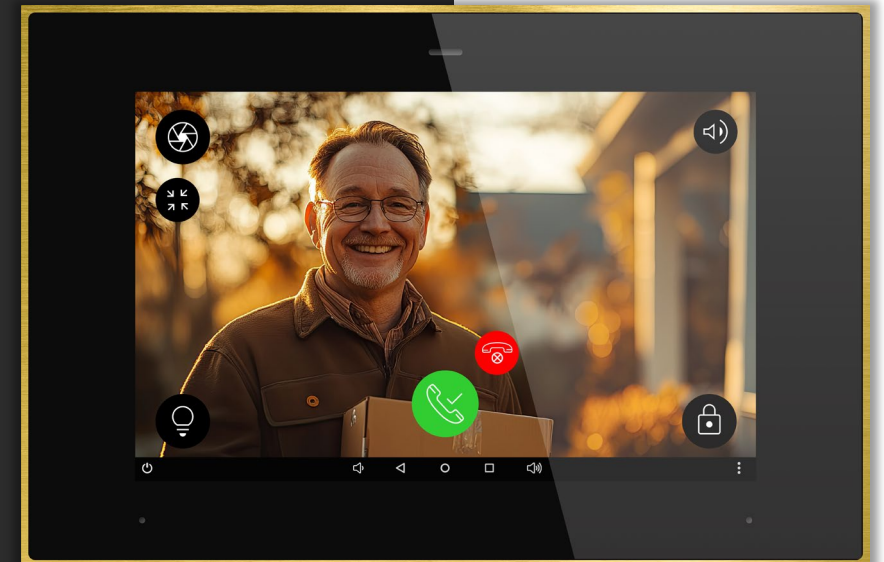

Alu Black

Gold

Copper

**Eternity 8. The elegant heart
of your Smart Home.**

Control your Smart Home comfortably from wherever you are.

Eternity 6

Elegance and Control
at your Fingertips

Eternity 6

Genuine metal frame blends seamlessly into high-end interiors.

Central control for your living-dining-kitchen area or other areas with high demands.

Smart Home at your Fingertip. **Up to 64 functions can be programmed.**

Choice of **horizontal or vertical orientation**, adapts perfectly to your place and style.

Alu

Alu Black

Gold

Copper

Eternity 6 fits perfectly as a central element in the living-dining-kitchen space.

Eyeswitch

Slim Aesthetics,
Smart Integration

Eyeswitch

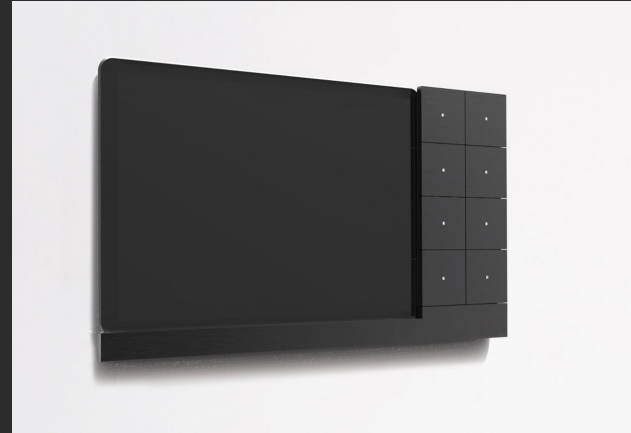

The nest for your tablet on the wall.

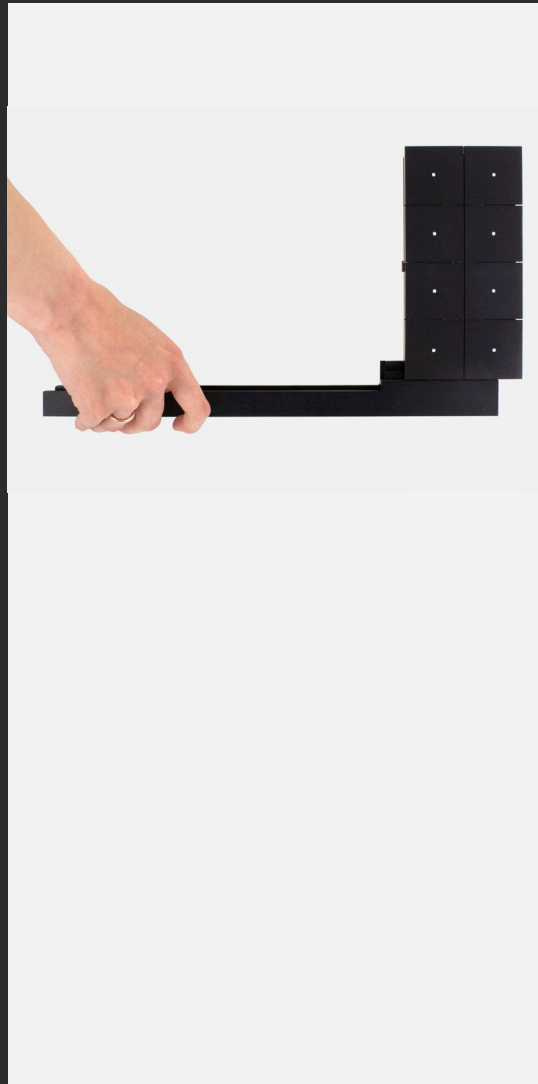

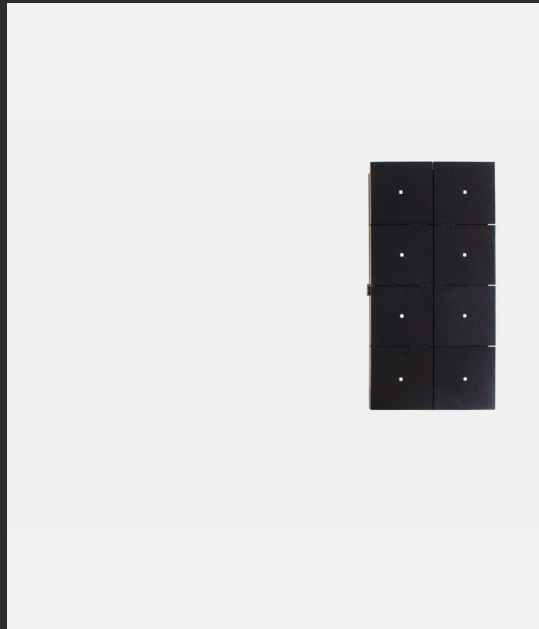

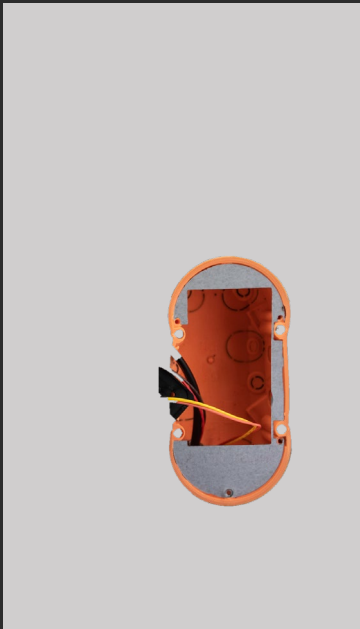

Unique **combination** of stylish Tense Intensity and a discreet tablet holder.

Display and physical switches. Take control whichever way you want.

Blends seamlessly in your room with other Tense products.

A synergy of physical switches and portable ease of use digital technology.

Clean design with or without
tablet, charging included.

A list of compatible tablets can be
found in the Tense download area.

Intensity

Exquisite finish,
Perfection brought to Life

Intensity

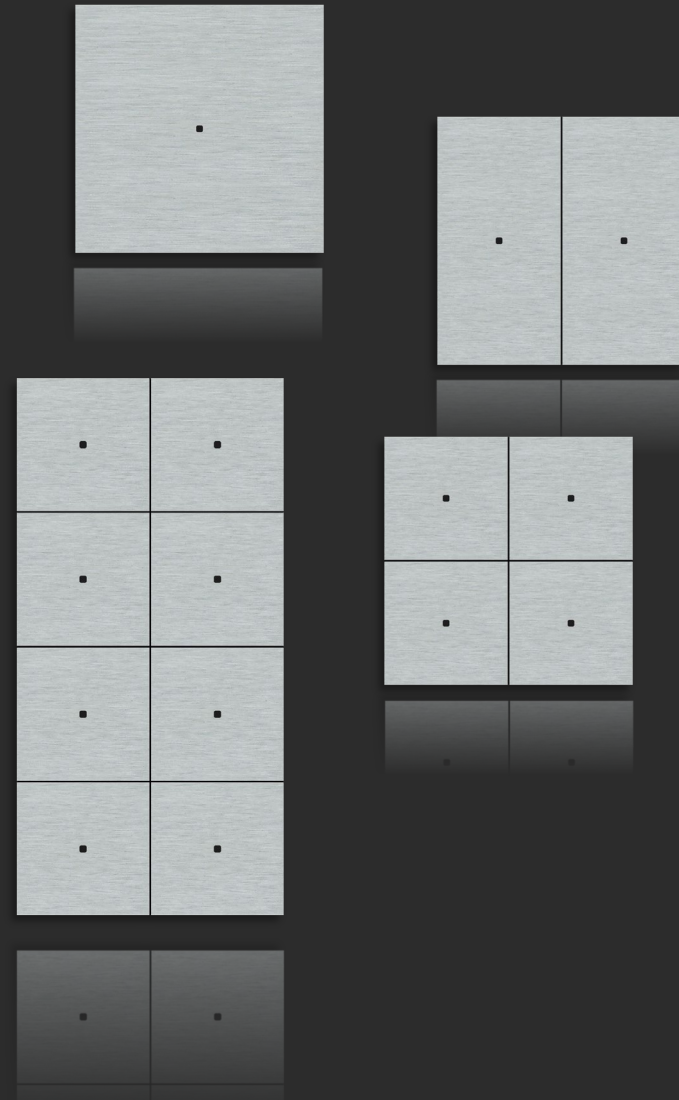

The Intensity series embodies **contemporary design**.

Each Intensity is a **handmade one-of-a-kind piece**, crafted with the utmost care from high-quality materials.

Each button provides feedback on the touch via **individual** RGB color.

Wide range of high-quality materials, from precious metal to unique stones. From Corian, to natural wood or glossy glass.

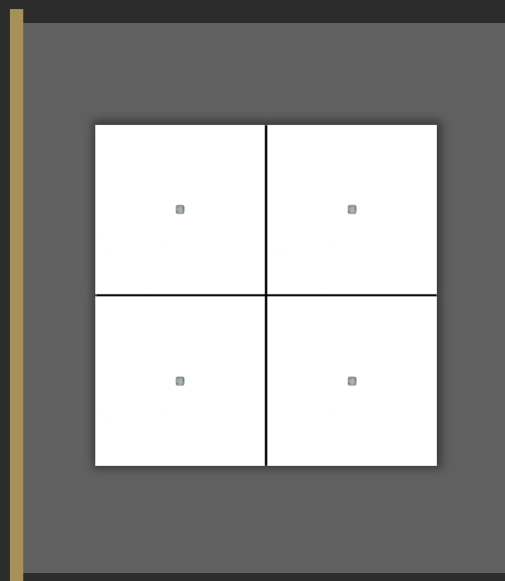

**The right size for every room,
every touch a distinctive
feeling.**

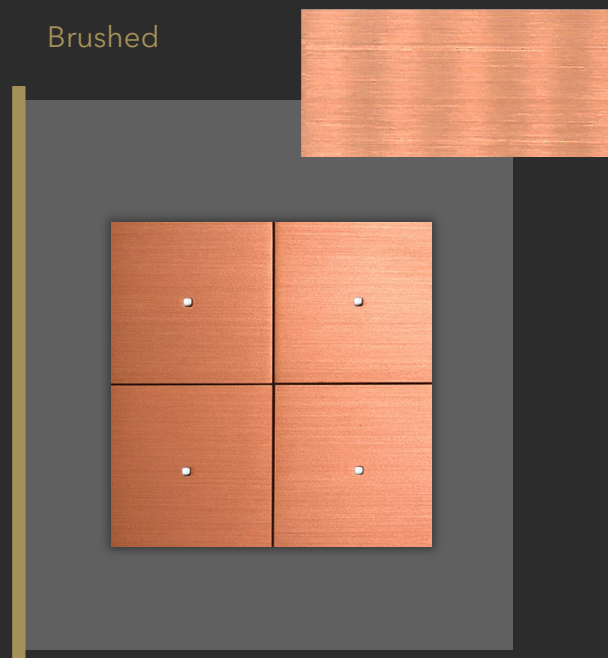

Metal Surface Structures

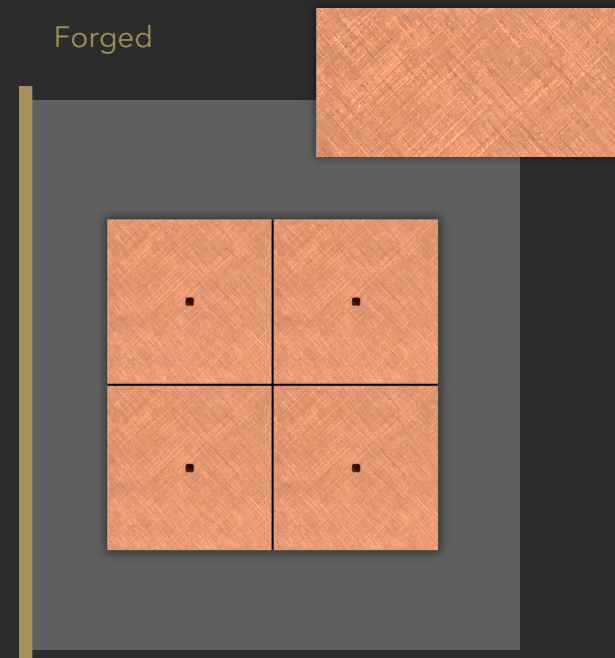

Even

Brushed

Forged

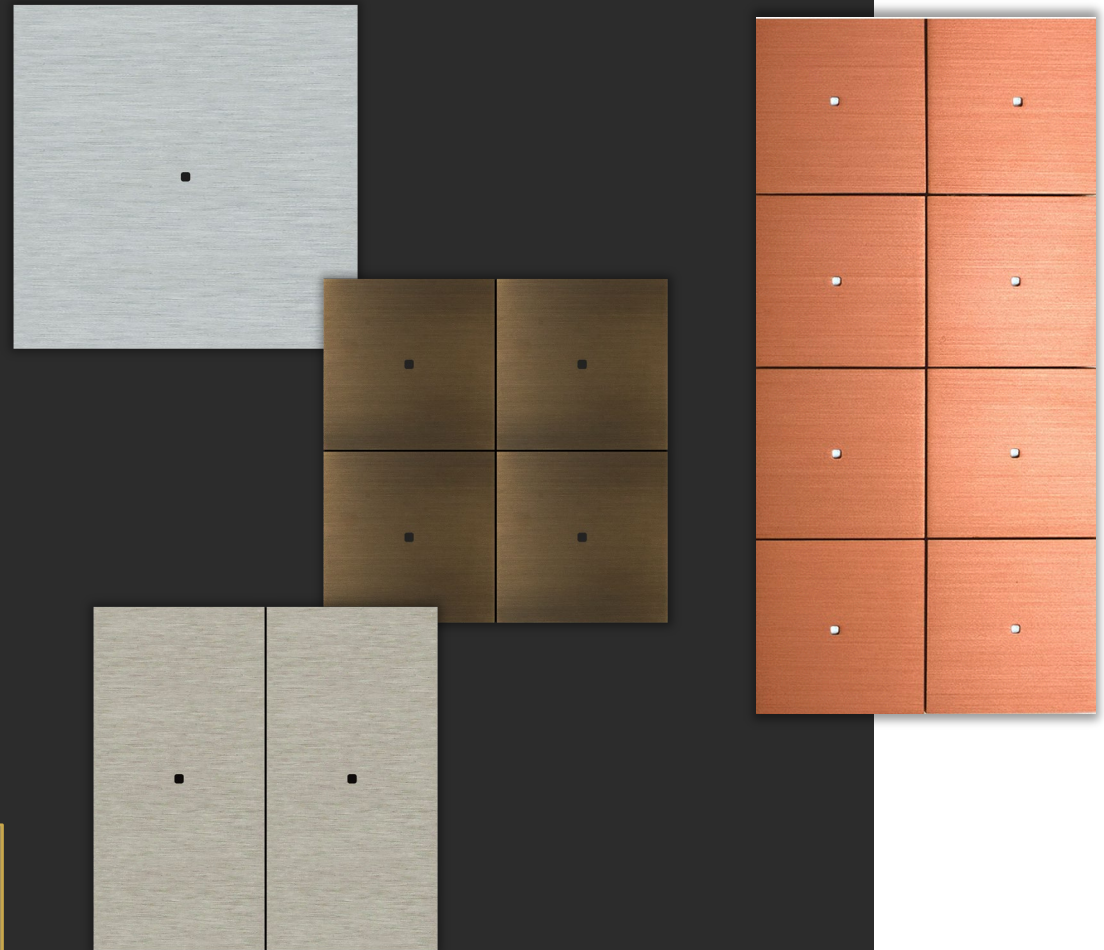

Intensity Metal

Cool real metal keys make switching a sensory experience.

Intensity metal **refines any interior design**, whether it is discreet aluminum or luxurious gold.

Choice of 18 different brushed, forged or polished metal finishes.

Surfaces which you will want to look at and touch - over and over again.

Intensity Glass / Corian / Special

Intensity glass for a very modern and elegant interior design appeal due to the **light reflection**.

Intensity Corian combine an extremely robust, non-porous surface with a classy, **matt finish and silky feel**.

Intensity Special merge perfectly with the wall design.

**Extraordinary surfaces for
individual statements.**

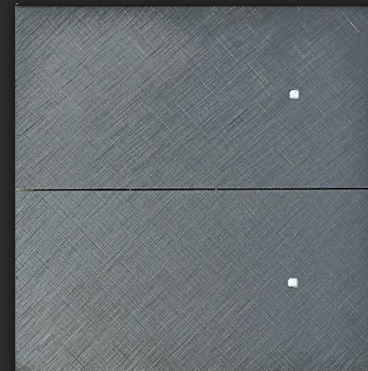

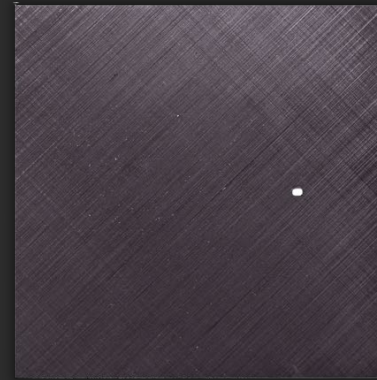

Intensity Landscape

Special projects require special design.

The **asymmetrical button** was specially designed for the design hotel "Blue Lagoon" in Iceland.

Available **exclusively for large-scale projects.**

Design beyond Symmetry.

Serenity

The Essence of Control,
Crafted in Elegance

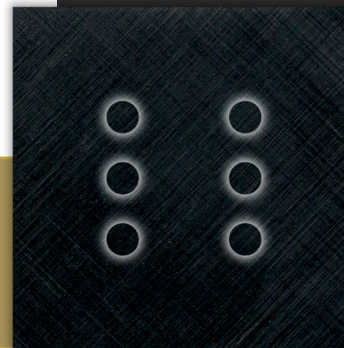

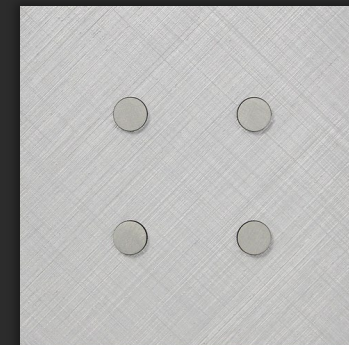

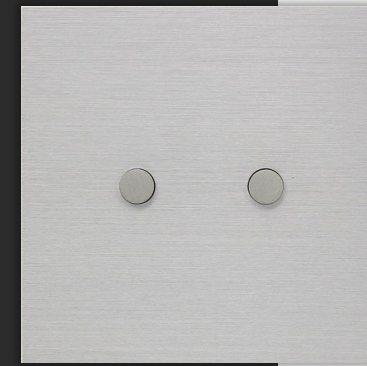

Serenity

The elegant Serenity switches combine **functionality and design**. For those who want to actually press a button.

Circular push buttons provide precise, haptic feedback.

Integrated indirect LEDs refine the look and provide orientation at night with a soft, elegant glow.

Soft LED lighting for even more elegance and orientation.

Velocity

Exceptional Appearance,
Excellent Handling

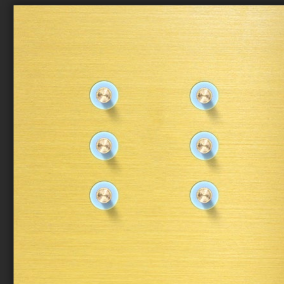

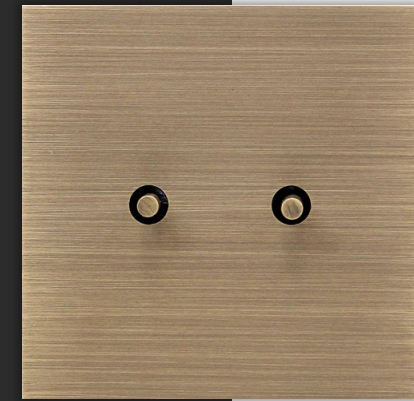

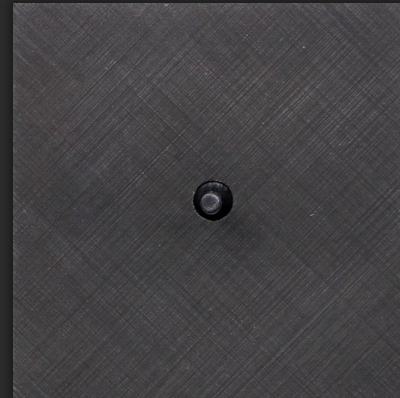

Velocity

Architectural switch in a unique design serves as a highlight in each room.

Lever switch elegantly combines functionality and design with distinct clicking sound.

LED lights serve as orientation and add even more sophistication to the switch.

Velocity as a highlight for your room control.

Infinity

Elegance in Touch,
Control at a Glance

Infinity

Stylish **room controller** with a clear display, suitable for small to medium-sized rooms.

High-quality **real material surfaces** combined with a matching display.

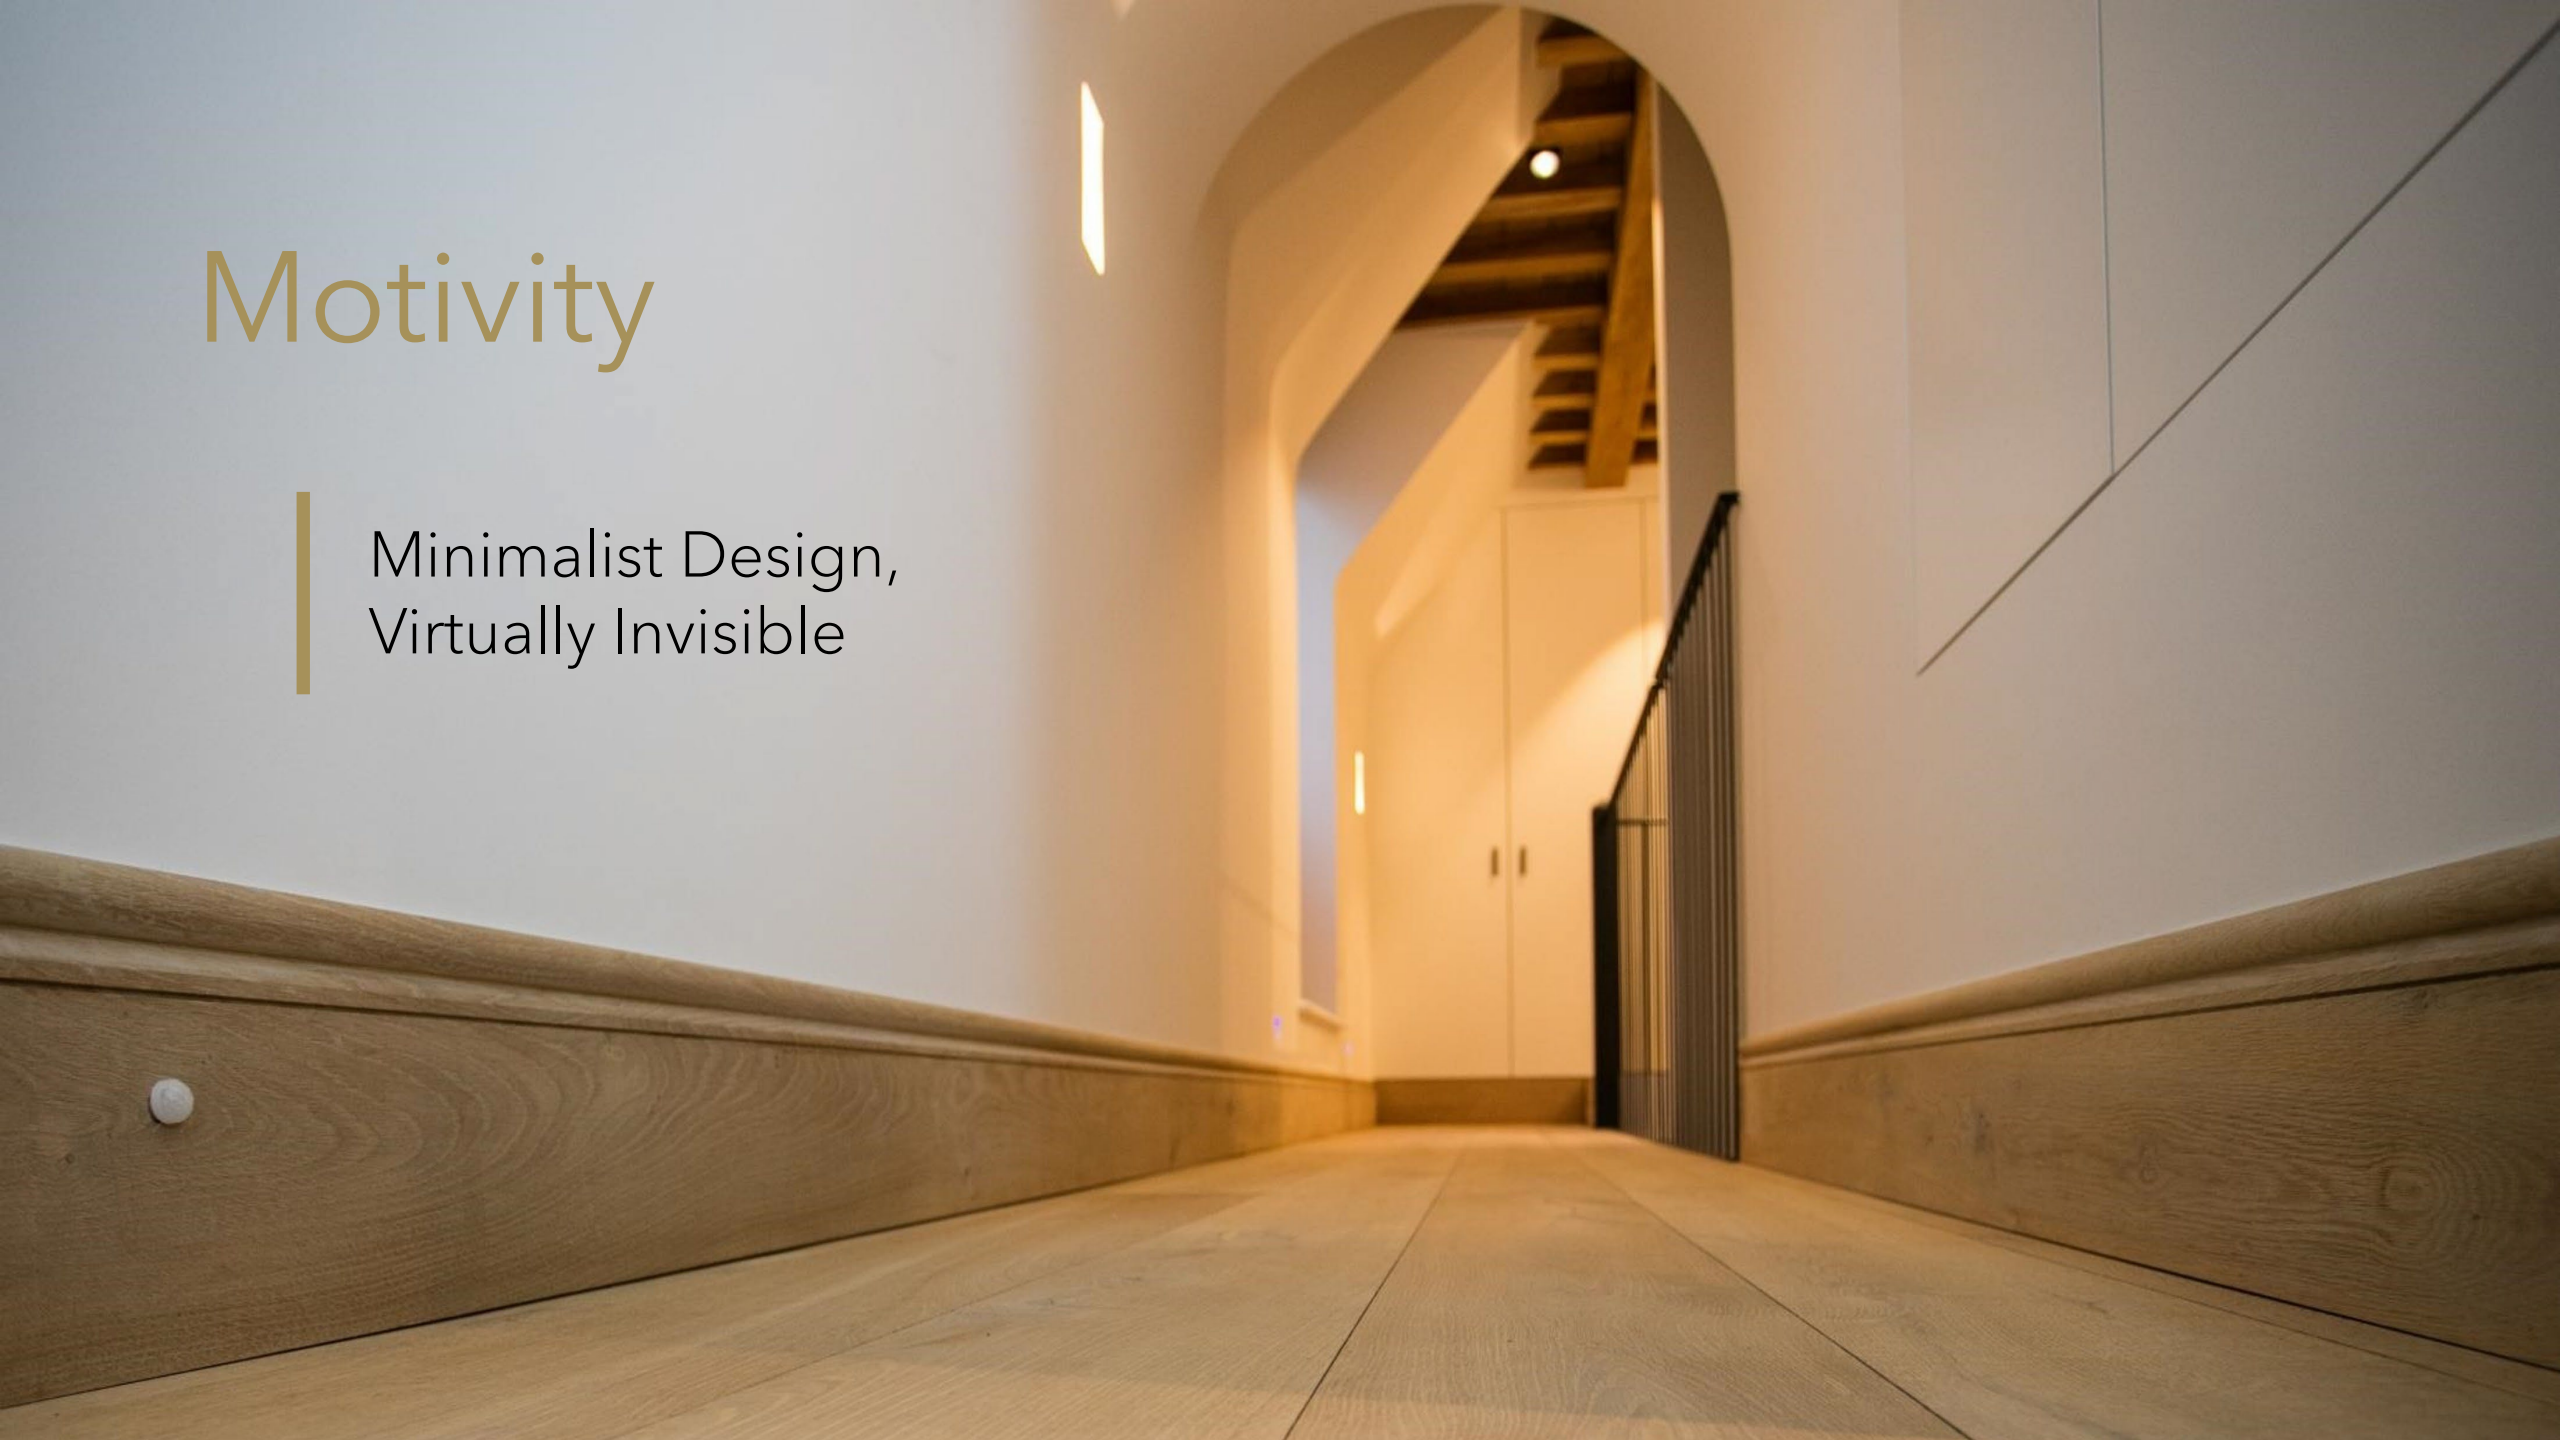

All information can be retrieved **comfortable** and quickly, **clearly structured** and operated directly on the controller.

**Chic mini control center
for small spaces**

Motivity

Minimalist Design,
Virtually Invisible

Motivity Ceiling

Automatic light switching on motion – comfortable and efficient.

With a **lens diameter of only 17 mm**, this is one of the most discreet presence detectors in the world.

Includes **temperature sensor and brightness sensor** for further smart building automation.

Minimalist installation, for example in a suspended ceiling or a skirting board.

Light through movement - impressively precise and energy-efficient.

Motivity Line

With its narrow detection range, it is the **ideal choice** for corridors, stairwells, wardrobes or next to the bed.

Reliable motion detection in transit areas.

With a sensor head size of 12 x 26mm, this is a truly **discreet solution**.

Includes **temperature sensor and brightness sensor** for your smart building automation.

Comfort, minimalist design - hardly visible in your home.

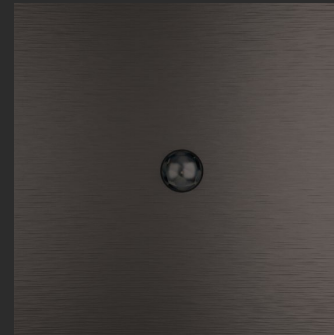

Motivity Wall

Minimalist lines and a **discreet** lens.

The detectors fit perfectly into any room and ensure a **uniform design** throughout the project.

Matching design choices for your entire home: Motivity Wall is available with all Tense metal finishes.

Genuine metal plate with minimalist lens as a discreet design solution.

Frames

Blending in,
Perfectly Fitting

Frames

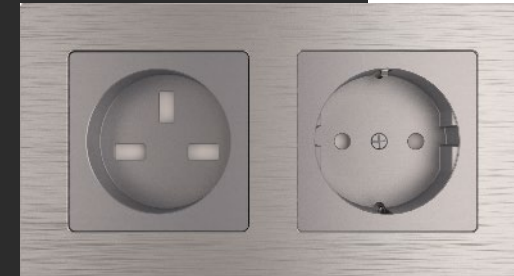

Perfection to the socket: Tense frames are made of the same materials as the high-quality switches.

Available in all **metal and Corian, glass, stone and wood finishes** in variations 1 to 3-gang.

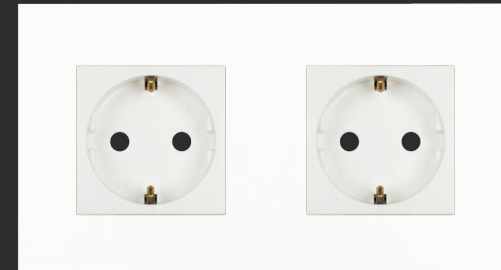

Range of suitable inserts available (Schuko socket, radio/TV/satellite, RJ45).

Can also be combined with smart built-in buttons in the right size.

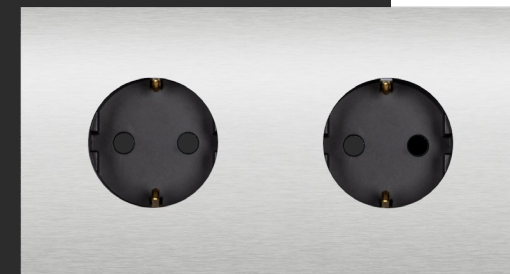

Elegant frames for a stylish finish.

Variant 1: Robust
12 mm material width
55x55mm inserts

Variant 2: Straight
6mm material width
45x45mm inserts

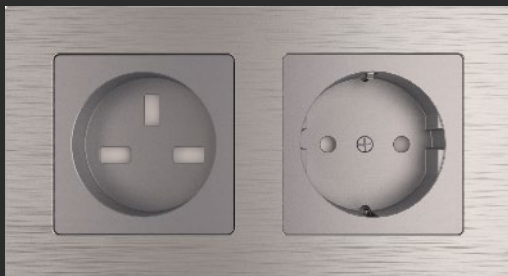

Variant 3: Minimalist
6mm material width
45x45mm inserts

Frames

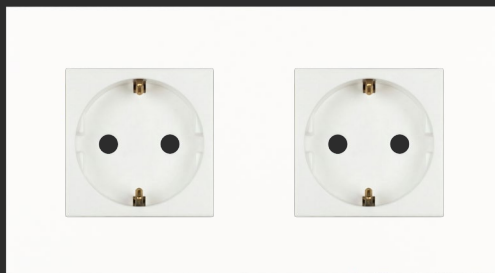

12mm square

84 x 84 mm with a width 12 mm.

These frames can be complemented by 55 x 55 mm inserts from Tense or other brands, such as Gira, Jung, Berker. (socket, data, USB, RJ45)

6mm square

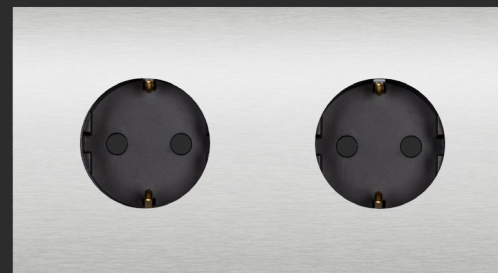

84 x 84 mm with a width of 6 mm.

These frames can be completed with all 45 x 45 mm inserts (socket, data, USB, RJ45, ...).

- . Legrand (Arteor, Valena Next & Mosaic)
- . Peha (Concept 45)
- . Simon K45
- . Hager Gallery
- . Efapel MEC Q45
- . Sinoamigo Typ 45
- . TEM Teknik
- . Niko (RJ45)

6mm round

84 x 84 mm with a width of 6 mm.

These frames can be complemented with the Tense 45 x 45 mm socket inserts.

Trimless

Minimalist and
Almost Invisible

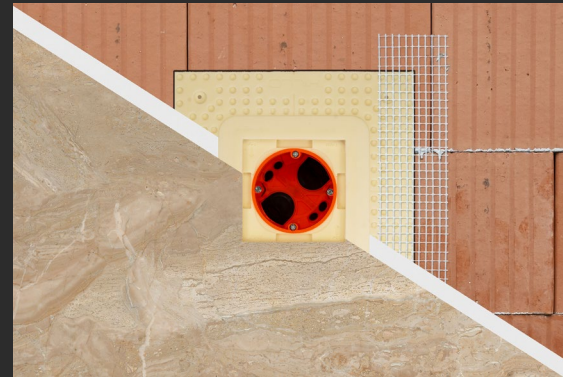

Truly invisible: the technology **merges** with the wall.

Innovative flush-mounted bracket for **flush installation** of switches and frames.

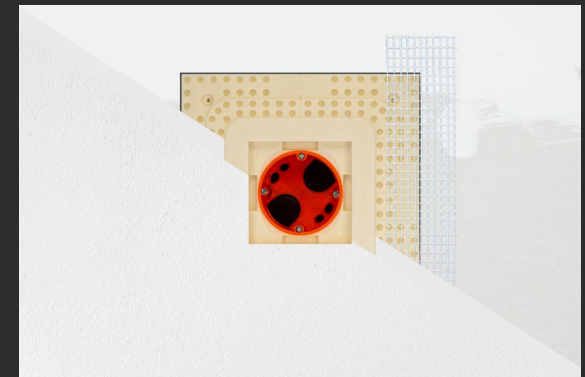

Can be plastered and/or painted.

Unique effect in combination with your Wallpaper.

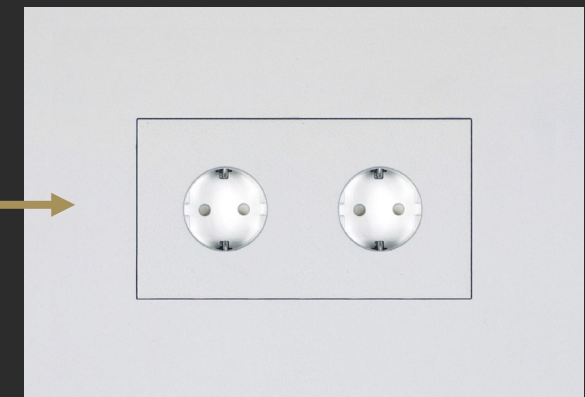

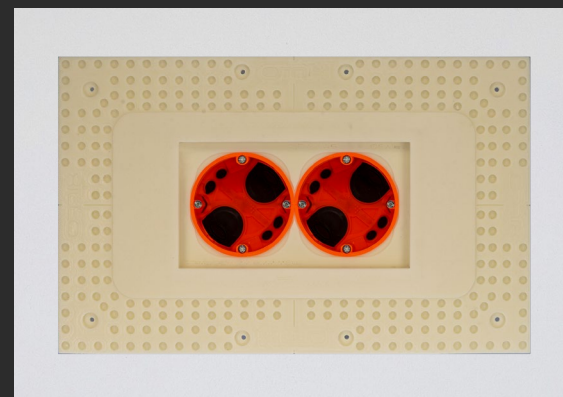

Trimless

For masonry

For plasterboard

Finishes

Individual refinements for even more uniqueness.

Texts, logos and/or symbols provide **orientation**, especially for guests.

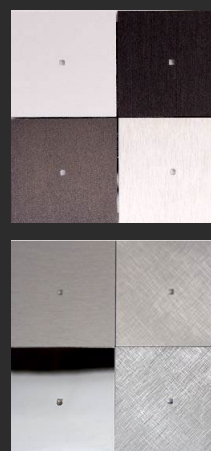

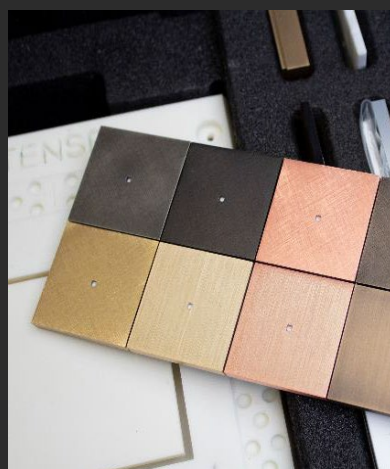

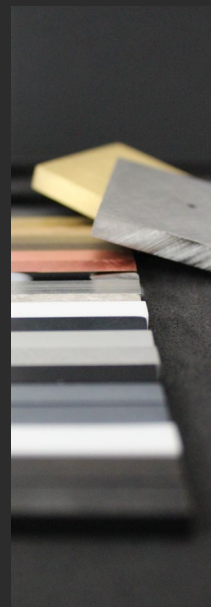

Possibilities depending on the material:

- . Engraving
- . Laser
- . Printing
- . Print in RAL colour (only on aluminium)

Special requests for major projects possible.

**Final touches for your perfect
Tense product.**
